

The Ohio Lake Management Society

presents

Stormwater Effects on Lake Management

A hands-on community environment for understanding the challenges of Stormwater on Lake Management.

Tuesday - March 21, 2006
8 A.M. – 6 P.M.

Join your peers at Deer Creek Resort for an exciting day of exploring the effects of non-point source storm water on lakes.

Travel through the presentations, absorbing the wealth of knowledge, and relax in the atmosphere. Mingle with exhibitors and experience the latest in technology to enhance your career. Have questions? Get answers from the best guru's in water management. There will be door prizes, silent auction and free literature. So don't miss out, enhance your knowledge of water management!

Keynote address: "Preparing decision makers, the media and the public for stormwater events".

Dave Jones of StormCenter Communications, Inc.

Register before March 7, 2006 and we will include lunch.

For a complete schedule, see our web site.

www.olms.org

A registration of \$65.00 per person.

(Student's registration of \$45.00 per person)
