1985
 March 1986

OLMS Mission

- The mission of the Ohio Lake Management Society is to promote scientific research and sound management of Ohio's lakes through education and technical assistance, collection and dissemination of water quality data and advocacy of the policies that enhance the quality and protect the ecological and recreational benefits of lakes for the people of Ohio.

OLMS Objectives

- Promote and provide a forum for sharing of information and experiences on scientific, administrative, legal and financial aspects of lake and watershed management.
- Foster the development of local lake restoration and protection programs in accordance with appropriate management strategies and techniques.
- Encourage support and development of local, state and national programs, policies and legislation promoting lake and watershed management.
- Encourage the cooperation and interaction of organizations, agencies, units of government and individuals concerned with lake and watershed improvement and protection.
- Encourage development and enforcement of laws designed to protect lakes and watersheds.

Full Circle

- Back in the MWCD
- With About 50 people gathering to learn more about lakes

Enjoy the meeting...

- Ask Questions
- Visit our Vendors
- Talk to each other
- Tell stories
- Look for 'respectful' solutions
